

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

ral Natural curiosities, as curious Shells, Ores, Mettals, Minerals ; and particularly, he found a very fine sort of Iron Ore on the Coast of *Northumberland* : he is now busie in drawing the Maps of those Shires, and intends shortly to publish them, with the Natural History of those places.

An INDEX to the 22d Vol. of the Philosophical Transactions.

A.

A *Bbdomen* of a Man prodigiously distended with Wind, and cut 6 inches thick of Fat. No 265. p. 618.

Abfcess of 12 years standing opened. No 265. p. 617.

Abfcess at the Navel, discharging a great quantity of Prune-stones. No 265. p. 617.

Age of Men. See Men.

Alkali and *Acid* precarious principles. No 273. p. 918.

Alum how made near *Naples*. No 265. p. 632.

Allantois. See Anatomical discoveries.

Ambergrice a large piece. No 263. p. 573.

Anatomical Observations and Discoveries.

The *Intestines* and *Mesentery* found in the *Thorax*. No 275. p. 992. An Ivory Bodkin cut out of the *Blad-*

der. No 260. p. 445. A curious preparation of the *Blood-vessels* and *Viscera*. No 265. p. 630. A *Stone* with Hair cut out of the *Bladder*. No 266. p. 688. A *Polypus* near the *Spleen*. No 266. p. 690. A Triple *Bladder* in a Man. No 268. p. 752. *Dissection* of a Woman dead in Child-bed. No 269. p. 787. A *Polypus* in the *Vena Pulmonalis*. No 270. p. 797. The human *Allantois* fully discovered. No 271. p. 835. A new opinion of the motion of the *Heart*. No 273. p. 914.

Aneurisme in the *Aorta*. No 267. p. 696.

Animalcules observed in *Semine Masculino*. No 262. p. 560. Farther observations on the same. No 268. p. 739. and more on that subject. Their prodigious num-

number. *p.* 744. *No* 270.
p. 821. *No* 273. *p.* 907. See
 Insects.
Animals at Darlen. *No* 262.
p. 539.
Antiquities—An account of
 a *Saxon Antiquity.* *No* 260.
p. 464. *Roman Antiquity in*
Lincolnshire, and Ruines of
 a Town there. *No* 263. *p.* 561.
 Remains of a *Roman Potte-*
ry. *No* 263. *p.* 564. Remains
 of 2 *Roman Games.* *ib.* *Ro-*
man Pavement. *p.* 565. Of
 the *Catacombs at Rome* and
Naples. *No* 265. *p.* 643. *Ro-*
man Inscription near Dur-
ham. *No* 266. *p.* 649. *Nu-*
merical figures used in En-
gland an. 1090. *No* 266. *p.*
 677. The Ruins of *Tycho*
Brake's Observatory. *No*
 266. *p.* 692. *Roman Anti-*
quities near the Devizes. *No*
 268. *p.* 758. *Roman, French,*
and Irish Antiquities in Ire-
land. *No* 269. *p.* 768.
Arithmetical Figures used in
England, an. 1090. *No* 266.
p. 677.
Asbestus, its manner of *Spin-*
ning and Weaving. *No* 273.
p. 911. A further account of
No. 276.
Atlantis of Plato, thought to
 be *Noah's Flood.* *No* 266.
p. 685. *Plato's Atlantis*
 possibly the *Isthmus between*
Dover and Calais. *No* 275.
p. 973.

B.

Births, *Burials* and *Mar-*
riages, from Germany. *No*
 260. *p.* 471. *No* 261. *p.*
 508.
Bladder, a *Bodkin* cut out of
 it. *No* 260. *p.* 445. A
 Stone with Hair in the *Blad-*
der. *No* 266. *p.* 688. A
 Stone cut out of a Child
 with a Flint in it. *No* 266.
p. 689. A *Triple Bladder* in
 a Man. *No* 268. *p.* 752.
Bleeding at several parts in
 Convulsion Fits. *No* 268. *p.*
 756. Periodical *Bleeding* at
 the Thumb. *No* 272. *p.* 864.
Blood, its circulation in *Tad-*
poles. *No* 260. *p.* 447. in
 young Frogs, &c. *No* 261.
p. 515. *No* 262. *p.* 552. Of
 the acid Salt in *Blood.* *No*
 264. *p.* 599. Why the round
 globules of the *Blood,* are
 sometimes oval. *No* 263.
p. 554. Of the extream
 finallness of the parts of the
Blood. *No* 263. *p.* 555.
 Each Globule composed of
 26 smaller Globules. *No*
 263. *p.* 558.
Blood Venal made *Arterial*
 without passing the Heart.
No 262. *p.* 560.
Blood-vessels in the *Tunica cor-*
nea. *No* 272. *p.* 905.
Bodkin in the Bladder. See
 Bladder.
Bones Human very large. *No*
 272. *p.* 487. Some *Bones*
 supposed Human, were re-
 ally

- ally Quadrupeds. No 261.
 p. 489. Description of a
 large *Os Frontis*. No 261.
 p. 492. Large *Bones* and
 Teeth at *Charibam*. No 272.
 p. 882. In the Repository.
 No 275. p. 978. Large *Bones*
 found near *Harwich*. No
 274. p. 924.
- Books. See the end of the Index.
- Bramines* Religion and Opini-
 ons : The World 2892771
 years old according to them:
 Some remains of the *Mosaic*
 History among them: They
 hold the *Ptolomaic* System,
 manner of burning their ho-
 ly men, &c. No 268. p.
 729, &c.
- Brass* how made of Copper.
 No 260. p. 474.
- Bronchocele* its Seat and Cause.
 No 265. p. 631.
- Bulimia* caused by Worms. No
 264. p. 598.
- Bullet* voided by Urine. No
 266. p. 689.
- Cannon Bullet* 700000 years
 coming from a Star. No
 273. p. 906.
- Butter* little or none in *Berry*.
 No 273. p. 908.
- C.
- C**alendar. See Mathema-
 ticks.
- Cancers* what, and how cured.
 No 260. p. 476.
- Canterbury* stands most on rai-
 sed ground. A Roman arch
 5 or 6 foot deep, inhabited
 about *Julius Cæsar's* time.
 No 272. p. 884.
- Cataract* near *Gottenburgh*. No
 266. p. 691.
- Cæcum* filled with Cherry-
 stones causes a mortal Co-
 lic. No 165. p. 617.
- Chylification* how performed.
 No 273. p. 919.
- China* Varnish. See *Varnish*.
- Circulation* of the Blood. See
Blood.
- Cold* Fermentations. See *Fer-*
mentations.
- Colon* and *Cæcum* wanting in
 several creatures. No 269.
 p. 779. Mortify'd. No 275.
 p. 965.
- Cornea* of the Eye has Blood-
 vessels in it. No 273. p. 905.
- Crabs Eyes* described. No 266.
 p. 672.
- D.
- D**arien, an account of it,
 and its Inhabitants. No
 262. p. 538.
- Death-watch*, two sorts of them
 particularly described. No
 271. p. 832.
- Digestion* and *Chylification*
 how performed. No 272. p.
 919.
- Diseases*. *Cancers* described,
 with their cure. No 260. p.
 471. A substance like the
 Vessels of the Lungs cough'd
 up. No 263. p. 545. *Buli-*
mia caused by Worms. No
 264. p. 598. An *Abscess* at
 the Navel, discharging great
 quantities of Cherry-stones,
 causing the *Colick* and death
 in the Patient. No 265. p.
 617

617. Cure of the *Iliac passion* by Bullets. No 263. p. 567. *Incubus* its cause and cure. No 263. p. 565. *Worms* in an Ulcer. No 263. p. 570. *Worms* the cause of many diseases. No 263. p. 572. *Madness* cured by Musk and cold smells. No 263. p. 738. An Extraordinary *Spasmus* in the Children of 2 families. No 270. p. 799. A Periodical Hæmorrhage at the Thumb. No 272. p. 864. An unusual *Colic* by the Coalescence of the Colon. No 275. p. 965. Of the Nature of *Fevers*. No 272. p. 391.

Dreams, some sorts how caused. No 263. p. 568.

E.

E *Earthquakes*, their Effects upon the Mountains about the *Tungareuse* and *Batavian* Rivers. No 264. p. 598.

Earth once under water, proved by plain instances, with an Hypothesis of the change. No 266. p. 683. Several changes in the *Earth* by the Sea. No 275. p. 967, &c. *Earth* in *Moss* grounds increase about one foot in eleven years. No 274. p. 926.

Eclipse of the Sun, Sept. 13. 1699. observed at *Naremburgh*. No 265. p. 619.

Eggs of Insects taken in with the Food. No 263. p. 572. see Insects.

Effluvia from the Earth, &c. pretended to be seen with a Microscope. No 273. p. 901.

Elephants brought into *England* by *Claudius*. No 274. p. 925. How their Bones come to lye buried so deep. No 274. p. 926.

Ewes very fertile in the *Orkneys*. No 262. p. 444.

F.

O F the nature of Fermentation. No 273. p. 921.

Fevers, their Nature. No 273. p. 914. A *Fætus* voided by the Navel. No 275. p. 1000.

Of cold Fermentations. No 274. p. 951.

Fish. See *Shell-fish*. Spawn of *Fish* carry'd by Ducks, &c. to Ponds where none of that kind were before. No 263. p. 57.

Flesh whether a natural food for Man. No 269. p. 779. Of the difference between raw and prepared *Flesh*. No 269. p. 784.

G.

G All its use and motion. No 264. p. 610. Ill Effects of *Stones* in the *Gall bladder*. No 264. p. 611

Ganges described. No 268. p. 735.

Giants, a large discourse of them, and of large human Bones, and very tall Men. No 261. p. 487.

Gnats and animalcules in the Excrements of Frogs. No 261. p. 509.

H.

H *Æmorrhage*. See Bleeding. A Scale of the degrees of *heat*. No 270. p. 824.

A Preparation of the human Organs of *Hearing*. No 264. p. 614.

Heart, a new opinion of its beating. No 263. p. 568. & No 273. p. 914.

Hippocrates Aphorism of Cancers explained. No 260. p. 484.

Honey on Leaves a transpiration from the Plant. No 273. p. 910.

Horse eating Oysters. No 269. p. 779.

Houses and *Hearths* in *Dublin*. No 261. p. 518.

Hydrides voided by Urine. No 273. p. 897.

Hypothesis of the changes that have happened in the Earth. No 266. p. 684.

I. *Li*.

I.

Line Passion its cure. No 263. p. 569.

Of the *Incubus* and its cause, cure and danger if neglected. No 263. p. 565.

Inscription set up at the University of *Bononia*, in honour of *Malpighius*, No 265. p. 628. See more in *Antiquities*.

Insects in Sheep's Livers, No 261. p. 509. No 263. p. 571. In the Excrement of *Frogs*, No 261.

p. 509. In an Ulcer of a broken Leg, No 263. p. 570. Eggs of

Insects pass by the Chyle into the Blood, No 263. p. 572. Of the Generation of Spiders, &c. No 272. p. 867. In the Excre-

cences of Fruit-trees and Willow-leaves, No 266. p. 659. *In-*

sects preying upon others, p. 787.

Insects in *Virginia*, No 270. p. 807. Of the *Death-watch*, No

271. p. 832. *Insects* at *Fort St George*, No 271. p. 859. *Worms* in Teeth, No 265. p. 635.

Ireland, an estimate of the Inhabitants, No 261. p. 520.

Isthmus formerly joining *Dover* to *Calais*, No 272. p. 890. No 275. p. 967. No 276. p. 1022.

Instrument for drawing a Meridian, No 268. p. 763. A *Sea Barometer*, No 269. p. 791. New Thermometer, No 274. p. 362.

Journal from *Scotland* to *Darien*, No 262. p. 536.

L.

Laceals. See *Powders*.

Experiments of blue Tinctures transmitted into the *Lact-eals*, No 275. p. 996.

Of the Northern Languages, No 260. p. 467.

Learning, account of it in *Italy*, No 265. p. 627.

Libella Insect, No 266. p. 672.

Lizard and *Scilly* too far Nor-

therly in the Maps by 5 leagues, No 267. p. 725.

Lungs, a substance like their Vessels cough'd up, No 263. p. 545.

M.

Madness cured by smells, No 268. p. 738. Magnetic affairs, No 269. p. 1035.

Man, very large *Men* or *Giants*, No 261. p. 437. & p. 503. Some very old *Men*, No 261. p. 501.

No 268. p. 735. Account of Sea-

faring men and *Roman* Clergy in *Ireland*, No 261. p. 519. Men

holding their breaths till they fall into Trances, No 268. p. 735.

A person that can neither write nor read reckoning up large

summs, No 272. p. 893. *Women* bearing till 60 years old, No 262. p. 545.

Marble how stained, No 268. p. 727.

Mathematical matters. Constructi-

on of a *Quadratrix* of the Circle, No 260. p. 445. Concern-

ing the alteration of the *Cal-*

endar, No 260. p. 459. *Vari-*

ation of the Compass at the *Orkneys*, No 262. p. 544. *Eas-*

ie methods for measuring

curves, No 263. p. 547. *Incli-*

nation of the Needle near the

Line, No 264. p. 577. A *Geo-*

metrical Dissertation of the *Rain-*

bow, No 267. p. 714. *Solutio*

duorum Probl. Invenire Rationem

inter Resistent. Triang. & Rectang.

&c. No 268. p. 747. *Invenire li-*

neam celerrimi Descensus, No

268. p. 750. A way of Drawing

a Meridian, No 268. p. 763.

No 270. p. 815. *Journal* from

Scotland to *Darien*, No 262. p.

Medicine, its Theory much altered of late, No 273. p. 918.

Mercury rises in foggy weather, No 262. p. 528. See Instruments.

Microscopes extraordinary questioned, No 273. p. 904.

Monkey no bigger than a Rat, No 262. p. 539.

Monstrous Bones. See Bones.

Moss grounds grow about a foot in eleven years, No 274. p. 926.

Mountains raised and altered by Earthquakes, No 264. p. 595.

N.

Navigators up the Channel advertised, No 267. p. 725.

Needle drawn out at an abscess on the right side twelve years after, No 265. p. 617.

New inventions. See Instruments.

Numbers, a person neither writing nor reading, yet counting up great sums, No 272. p. 893.

Numerical figures used in England anno 1090. No 266. p. 667.

O.

Opium taken in great quantities without procuring sleep, No 275. p. 999.

Orkney described, No 262. p. 544.

Oysters eaten by an Horse greedily, No 269. p. 779.

P.

Double Pear, No 260. p. 476.

Petrifications of Shells, No 263. p. 563. No 266. p. 679. No 268. p. 763.

Of Mist by a Spring, No 263. p. 564.

Philosophy Corpuscular and Mathematic. cultivated at Naples, No 265. p. 629.

Plants with Leaves above 3 Ells long, No 262. p. 539. A double Pear, No 260. p. 470. No

Trees and few Shrubs in the *Orkney*, No 262. p. 545. *Brown's*

Collection of Plants and Drugs from the *East Indies*, No 264. p.

579. No 267. p. 699. No 271. p.

843. No 274. p. 933. No 276. p. 1020. *Acemella* its virtue

for the Stone, No 268. p. 760. A new species of Walnut, No

273. p. 908. A System of the indentings of the Leaves of *Plants*

promised. No 273. p. 911.

Polypus near the Spleen, No 266. p. 689. In the *Pulmonalis Vena*,

No 270. p. 797.

Powder'd Blues passing the *Lacteals* No 270. p. 819.

R.

Rainbow, a Geometrical account thereof, No 267. p. 699.

Razors, their edges observed, No 273. p. 901.

Religion and Rites, with other matters concerning the *Bramines*, No 268. p. 733.

Roman Antiquities. See Antiquities.

Romney-marsh lower now than the Sea, No 275. p. 971.

S.

Salt acid in the Blood, No 264. p. 599.

Salts, the quantity of *Acid* and *Volatile* contained in acid Spirits, No 262. p. 530.

Salts in Water, No 273. p. 900.

Sal armoniac native got by *Naples*, different from the factitious, No 265. p. 634.

Sands flying at *Santon* in *Lincolnshire*, No 263. p. 564.

Sea, what changes it has caused on the face of the Earth, No 366. p. 684. No 275. p. 972.

Shells, Beds of Oyster-Shells near *Reading* with the several Strata of the Earth. No

261. p. 484. Shells in the Quarries near *Broughton* in *Lincolnshire*, No 266. p. 677. See Sub-

terraneous *Shells* in the *Moluccas* described, No 274. p. 926.

Shells and *Insects* from *Fort St George*, No 271. p. 859. *Smells*

Smells curing Madnefs. See Madnefs.
